the SCHNEID STUDIO

Sustainability starts with the mindset.

Schneid Studio strives for enduring and elegant products which are mindful and meet the modern Zeitgeist in a courageous way. Using natural raw materials, striking colors and bold shapes we create mood and atmosphere.

At Schneid we work with a holistic view of sustainability. Our entire process of creation is soaked with the fundamental concept of creating fascinating objects with ethical value. For us, working sustainably also entails sharing the vision and enhancing sensitivity in order to elevate the consumer's perception of craftsmanship and artisanship.

„We believe in sustainability and are dedicated to solid craftsmanship. This is why we support local manufacturers, keep delivery routes short and work together with people who are practicing their jobs with passion — just as we do. “

Inspired by heritage techniques and the masterly skills of trained professionals, we maintain strong, long-term relationships with small local businesses where manual skills have traditional value. The independent and self-directed production of our designs ensures authentic and high quality products and enables us to support these workshops, aiming to create new markets for age-old art forms.

We believe designing entails responsibility. The thoughtfully considered choice of materials for an object is one of the most essential tasks in the process of designing. The use of ecological resources is just as important to us as striving to further ethical aesthetics. We believe that the close correlation of the two constitutes a crucial base for extraordinary and timeless design.

the UNISON TABLEWARE

The Unison set is a carefully handcrafted ceramic tableware collection that puts your favourite food in a perfect limelight. The collection consists of seven different pieces, each of which is dyed with pigments of refined subdued tones. By leaving the outer surface untreated and raw, the pieces get a soft tactile feel while the inside is glazed and shiny, enhancing a visual contrast of the tableware. Through a clear and graphical language, the parts can be stacked into each other to form a sculptural object, bringing a new perspective on simple everyday products.

the TIDE BLANKET

the TIDE BLANKET

pure wool

The Tide blanket is characterized by gentle and smooth transitions of dark and light color tones. Inspired by the rise and fall of the sea levels caused by the moon and the sun the blanket reflects atmospheric nature in cyclical structures. The rhythmical sections of the primary color softened by broad stripes of subtle and deeper shades has a soothing effect, making us cast off the haste and find calm and balance.
