“If you have an apple and I have an apple and we exchange these apples then you and I will still each have one apple. But if you have an idea and I have an idea and we exchange these ideas, then each of us will have two ideas.”

George Bernard Shaw

When a journey begins, we do not know what awaits us, or the people we will meet along the way. This very moment is about that Journey in the Design World and of some people we have worked with. This moment is a celebration of their talent. Our work is a way of thanking them, and all the people that are not present here with their projects, but with whom we share our work.

And I want to thank my father who made me discover and love the beauty of the design.
